Professional Summary

Fresher MERN Stack Developer with practical experience in developing full-stack web applications using React.js, Node.js, Express.js, MongoDB, and JavaScript. Experienced in creating REST APIs, user authentication systems, database management, and responsive web interfaces through personal and academic projects. Strong understanding of SQL, Data Structures, and Algorithms. Seeking an opportunity to apply technical skills and grow as a software developer in a professional environment.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, React Hooks, Context API, Tailwind CSS, Bootstrap, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, MVC Architecture
Databases: MongoDB, MySQL, PostgreSQL, CRUD Operations, Schema Design
Deployment: Vercel, Netlify, Render
Tools: Git, GitHub, Postman, Cursor, GitHub Copilot, ChatGPT, Claude
Core Skills: MERN Stack Development, Full-Stack Development, API Integration, Authentication & Authorization, Debugging, Testing, Problem Solving, Agile Collaboration

Education

Bachelor of Computer Applications (BCA)	2022 – 2025
CLG Institute of Engineering and Technology, Sumerpur, Pali, Rajasthan	
Class XII (Senior Secondary)	2022
Board of Secondary Education, Rajasthan	
Class X (Secondary)	2020
Board of Secondary Education, Rajasthan(RBSE)	

Experience

Full Stack Web Developer	June 2025 – Present
StackCode Training Institute, Ahmedabad	
- Developed web applications using React.js, Node.js, Express.js, and MongoDB. - Built responsive user interfaces and RESTful APIs. - Implemented JWT-based authentication and authorization. - Worked with MongoDB for database design and CRUD operations. - Used Git and GitHub for version control and collaboration.	

Projects

Employee Management System (EMS)
Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Server-Sent Events (SSE)

- Developed a full-stack Employee Management System using the MERN stack with secure authentication and Role-Based Access Control (RBAC) for Admin, Manager, and Employee roles.
- Implemented core HR modules including Payroll Management, Attendance Tracking, Leave Management, and Task Assignment workflows.
- Built secure RESTful APIs using Node.js and Express.js with JWT-based authentication and authorization.
- Enabled real-time dashboard notifications using Server-Sent Events (SSE) with polling fallback support for improved reliability.
- Designed a responsive and user-friendly interface using React.js, React Router, and custom CSS.
- Applied reusable component architecture and efficient state management to enhance maintainability and scalability.

E-Commerce Web Application
Tech Stack: React.js, Node.js, Express.js, MongoDB, CSS3

- Developed a full-stack e-commerce platform with authentication, product catalog, cart, and order management.
- Implemented JWT authentication and protected API routes.
- Built responsive UI using React Hooks and Context API.
- Focused on scalability and clean code architecture.

Certifications

- Full Stack Web Development (MERN Stack) – StackCode Training Institute, Ahmedabad (2026)
